Art Unit: 3751

1. Applicant's election without traverse of Group I in the reply filed on January 07, 2005 is acknowledged. The requirement is still deemed to be proper and is therefore made Final.

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Fig. 1;

Species II: Figs. 3a and 3b;

Species III: Figs. 4, 5a and 5b; and

Species IV: Page 20, lines 11-15 (claim 32).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, at least claims 1 and 26 are considered to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3751

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Upon an election of a species as defined above, a further election of one of the following sub-species is required consonant with the rules set forth supra:

Sub-species A: Page 9, line 19 through page 10, line 3
(claim 3); and

Sub-species B: Page 10, lines 3-7 (claim 4).

4. A telephone call was made to Roger W. Blakely, Jr. on February 28, 2005 to request an oral election to the above

restriction requirement, but did not result in an election being made.

5. Any inquiry concerning this communication should be directed to Robert M. Fetsuga at telephone number 571/272-4886 who can be most easily reached Monday through Thursday.
